Rationale of the Scheme

24. All the companies involved in the Scheme are closely held group companies and for achieving better focus and management efficiency, the management of the companies are of the view that it is essential that the apparel business and the remaining business are housed in two separate entities. To achieve this, the Apparel Business Undertaking (including the entire holdings in the Transferor Company 1 and Transferor Company 2 , which are also engaged in the Apparel business) ("Demerged Undertaking") (defined under the Scheme) would be demerged into the Resulting Company and the remaining business ("Remaining Undertaking") would be retained in the Demerged Company. This would enable achieving greater visibility on performance of Apparel Business, global competitiveness, rationalization of business processes and reduction of volatility in the earnings streams.

25. The Board of Directors of the companies involved in the Scheme recognize the fact that there is a need to concentrate on the Demerged Undertaking due to vast scope available in the market. The Demerged Undertaking requires specialized skills and knowledge and has distinct capital requirement, cash flow profiles, operational and training requirements.

26. The nature of risk and competition involved in the Apparel Business is distinct. The investments made in this business are capable of being leveraged so as to derive better gains for shareholders. It has therefore been decided that the Demerged Undertaking should be demerged into Resulting Company.

27. The Scheme further, inter alia, envisages the amalgamation of Transferor Company 1 and Transferor Company 2, which are also engaged in the Apparel Business with the Transferee Company and transfer and vesting of all the assets, liabilities and business of the said companies in the Transferee Company.

28. This will result in consolidation of the apparel business in the Transferee Company and would, inter alia, have the following benefits.

i. The amalgamation would promote administrative convenience and would facilitate the integration of all activities of management.

ii. The amalgamation would help in the achievement of optimum utilization of various resources and the elimination of unnecessary duplication of costs, thereby helping in achieving reduction and improving control over costs.

29. Since, the Demerged Company holds multiple licenses and maintain contracts with international entities in connection with its apparel business, in order to ensure continuity particularly with international clientele, and minimal operational disruption of the apparel business, upon the Scheme becoming effective, it is proposed that the name of the Demerged Company shall stand changed to "Shahi Industries Private Limited" or any other name as approved by the Registrar of Companies and the Resulting/Transferee Company shall acquire the name of the Demerged Company and accordingly, the name of the Resulting Company shall stand changed to "Shahi Exports Private Limited".

30. The proposed Composite Scheme of Arrangement is in the larger interests of the Demerged Company, the Resulting Company and the Transferor Company 1 & 2, and its shareholders, creditors and employees. There is no likelihood that any shareholder or creditor of either the Demerged Company or the Resulting Company or the Amalgamating Company would be prejudiced as a result of the Scheme.

31. With the aforesaid objectives, the Board of Directors of Shahi Garments Private Limited, Shahi Exports Private Limited, Shahi Knits Private Limited & HSA Apparels Private Limited seek to merge Shahi Knits Private Limited & HSA Apparels Private Limited into Shahi Garments Private Limited and also restructure the business of Shahi Exports Private Limited by transferring and vesting the Apparel business with Shahi Garments Private Limited.

The Scheme will neither impose any additional burden on the shareholders, nor will it adversely affect the interests of any shareholders or creditors of the Applicant Companies. The Scheme provides for the demerger of the Apparel Business Undertaking of the Demerged Company into the Resulting Company, the amalgamation of the Transferor Companies with the Resulting Company, and is not an arrangement or compromise with creditors of any of the entities involved in the Scheme.

7. It is submitted that the Rationale and Salient Features of the Scheme for the Composite Arrangement among the Applicant Companies and their respective shareholders and creditors is reproduced as follows:

A. *" All the companies involved in the Scheme are closely held group companies and for achieving better focus and management efficiency, the management of the companies are of the view that it is essential that the Apparel Business and the Remaining Business are housed in two separate entities. To achieve this, the Apparel Business Undertaking (including the entire holdings in the Transferor Company 1 and Transferor Company 2, which are also engaged 1n the apparel business) ("Demerged Undertaking") would be demerged into the Resulting Company and the remaining business ("Remaining Undertaking") would be retained in the Demerged Company. This would enable achieving greater visibility on performance of Apparel Business, global competitiveness, rationalization of business · processes and reduction of volatility in the earnings streams.*

B. *The Board of Directors of the companies involved in the Scheme recognize the fact that there is a need to concentrate on the Demerged Undertaking due to the vast scope available in the market. The Demerged Undertaking requires specialized skills and knowledge and has distinct requirements, cash flow profiles, operational and training requirements. The illustrative split balance sheet of the businesses as on 31.05.2026 is annexed as Annexure G.*

C. *The nature of risk and competition involved in the apparel business is distinct. The investments made in this business are capable of being leveraged so as to derive better gains for shareholders. It has therefore been decided that the Demerged Undertaking should be demerged into the Resulting Company.*

D. *The Scheme further, inter alia, envisages the amalgamation of Transferor Company 1 and Transferor Company 2, which are also engaged in the apparel business with the Transferee Company and transfer and vesting of all the assets, liabilities and business of the said companies in the Transferee Company. This will result in consolidation of the apparel business in the Transferee Company and would, inter alia, have the following benefits.*

   a. *The amalgamation would promote administrative convenience and would facilitate the integration of all activities of management.*
   b. *The amalgamation would help in the achievement of optimum utilization of various resources and the elimination of unnecessary duplication of costs, thereby helping in achieving reduction and improving control over costs.*

E. *The Appointed date under the Scheme is 01 April2026. On and from the Appointed Date, the Apparel Business/Demerged Undertaking of the Demerged Company shall demerge into the Resulting Company. All properties and assets, licenses or certificates, registrations obtained under various regulatory laws of the Demerged Undertaking of the Demerged Company shall be transferred to Resulting Company, i.e., Applicant Company 2 so as to become its properties, assets, licenses or certificates and registrations obtained under various regulatory laws. The liabilities of the Demerged Undertaking of the Demerged Company shall be transferred to and vested in and assumed by the Resulting Company.*

F. *Upon the scheme coming into effect, all taxes/ cess/ duties, direct and/ or indirect payment by or on behalf of the Demerged Undertaking of the Demerged Company, including all or any refund and claims, including refunds and claims pending with the revenue authorities and including the right to carry forward*

accumulated losses, tax credits, if any, shall for all purposes be treated as the tax/ cess/ duties/ liabilities or refunds, claims, accumulated losses and tax credits of the Resulting Company i.e. Applicant Company 4.

G. *The Scheme also envisages amalgamation of Transferor Company 1 and 2, which are also engaged in apparel business into the Transferee/Resulting Company.*

H. *The Scheme does not envisage any loss of employment and specifically provides that on the Scheme becoming effective, all the staff, workmen and employees of the Demerged Undertaking of the Demerged Company and that of the Transferor Company 1 & 2 shall be deemed to have become the employees of the Resulting Company, without any break or interruption in their services, on not less favourable terms and conditions on which they are engaged as on the Effective Date. "*

8. Upon the coming into effect of this Scheme and in consideration for demerger of Demerged Undertaking of the Demerged Company into the Resulting Company, Resulting Company shall issue and allot Equity Shares to the equity shareholders of the Demerged Company, as under:

"1 (One) fully paid Equity Share of INR 10/- (Indian Rupee Ten) each in Shahi Garments Private Limited (SGPL) for every 1 (One) fully paid Equity Share of INR 10/- (Indian Rupee Ten) each held in Shahi Exports Private Limited (SEPL)"

Since Transferor Company 1 and Transferor Company 2 are/will be wholly owned subsidiaries of the Transferee Company, no shares will be issued by the Transferee Company for their amalgamation. A Valuation Report dated 25.02.2026 has been issued by Mr Kapil

Nayyar, Registered Valuer (IBBI/RV/02/2019/12155), and the share exchange ratio has been accepted by the Boards of Directors of the Applicant Companies. A copy of the Valuation Report is annexed as Annexure-B to the Application.

These are annexed with the Application as Annexure H-1, H-2, H-3 and H-4 for Applicant Companies 1, 2, 3 and 4, respectively. Since Applicant Companies 2 and 3 are to be dissolved pursuant to the Scheme, there is no question of any accounting treatment in their books.

3. PURPOSE OF VALUATION

The scheme provides for demerger of the demerged undertaking of SEPL to SGPL, and corresponding issuance of equity shares of the Resulting Company to the shareholders of SEPL.

In this regard I have been appointed to determine the share entitlement ratio for the purpose of demerger as part of the scheme.

4. SOURCES OF INFORMATION

- For undertaking this valuation exercise, I have relied on the following sources of information provided by the management/ representatives of the Companies:

  1. Provisional Financials of SEPL for Financial Year ("FY") as on date May 31, 2026
  2. Shareholding pattern of SEPL and SGPL as on April 01, 2026
  3. Composite Scheme of Arrangement between SEPL and SGPL and their respective shareholders and creditors under sections 230 to 232 and other relevant provisions of the Companies Act, 2013
  4. Beneficiary Position (BENPOS) as on 1 April 2026 and as on current date
  5. Financials of the Apparel business (Segmental) for the period ending 31st May 2026

- Other relevant data and information provided to me by the representatives of the Companies either in written or oral form or in form of soft copy.

- I have also obtained the explanations, information, and representations, which I believed were reasonably necessary and relevant for my exercise from the management of SEPL ("Management"). SEPL has been provided with the opportunity to review the draft Report (excluding the recommended Fair Share Entitlement Ratio) as part of my standard practice to make sure that factual inaccuracies/ omissions are avoided in my final Report.

Registered Valuer - Securities or Financial Assets
Registration No. : IBBI/RV/02/2019/12155

The Management has informed me that there would be no significant variation between the draft Scheme and the final scheme approved and to be submitted with the relevant authorities.

4. PROCEDURES ADOPTED

Procedures used in my analysis included such substantive steps as I considered necessary under the circumstances, including but not limited to the following:

- Discussion with the Management to:

  1. Understand the rationale for the Proposed Demerger and the Scheme
  2. Understand the current and proposed capital structure of SGPL
  3. Understand the business and fundamental factors that affect the operations of SEPL and SGPL

- Requested and received financial and qualitative information

- Analysis of information shared by the Management

- Reviewed the draft Scheme of Arrangement between the Companies

- Reviewed the provisional financial statements of SEPL and the provisional financial statements of the Demerged Undertaking and SGPL, as made available by the Management

- Reviewed the shareholding pattern of SEPL and SGPL as on April 1, 2026, including the BENPOS statement

- Determined the fair share entitlement ratio for issue of equity shares of SGPL to the shareholders of SEPL as consideration for the Proposed Demerger after taking into consideration the proposed capital structure of SGPL.

5. APPROACH FOR DETERMINATION OF FAIR ENTITLEMENT RATIO

- As mentioned earlier, as per the Scheme, the Demerged Undertaking is proposed to be demerged from SEPL into SGPL. SEPL has identified all the assets and liabilities of Apparel Business of SEPL which are to be taken over by and transferred to SGPL and corresponding issuance of equity shares of Resulting Company to the shareholders of SEPL.

- Based on my review of the shareholding pattern of SEPL and SGPL as on April 01,2026, SEPL has two classes of equity shares- Class EQ (with voting rights) and EQ Class B (without voting rights) ,both ranking *pari passu* in all respects as to economic entitlements, including dividend and participation in net assets upon liquidation. The Resulting Company will have only one class of equity shares, carrying full voting rights.

- Since Class EQ and EQ Class B shares rank *pari passu* on all economic entitlements based on the terms of the documents made available to me, in my opinion, the economic interest of the shareholders of the Demerged Company as existing immediately prior to the demerger is expected to remain unchanged upon and after the demerger; accordingly, in my view, the demerger would not be expected to result in any alteration or dilution of their beneficial economic interest. Based on the facts and representations made available to me, and subject to the assumptions and limiting conditions stated in this report, the share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company, and the Proposed Demerger is considered value-neutral to the Demerged Company's shareholders.

Kapil Nayyar
Registered Valuer - Securities or Financial Assets
Registration No. : IBBI/RV/02/2019/12155

- Considering the above facts and circumstances, and solely for the limited purpose of determining the share entitlement ratio in the context of the Proposed Demerger (as distinct from determining absolute fair value), the share entitlement ratio is not expected to have a material bearing on the fairness of the Proposed Demerger, as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain substantially the same . This conclusion is based on the facts, representations, and information furnished to me by the management of the Company, which I have relied upon without independent verification, subject to there being no material change in facts thereafter. I have therefore not considered it necessary to carry out an independent valuation of the subject business for the limited purpose of this engagement.

- Further, since the Resulting Company will issue only one class of equity shares carrying full voting rights, in my opinion, the share entitlement ratio of EQ Class B shareholders of SEPL should be appropriately discounted relative to the Class EQ share entitlement ratio, to reflect the voting rights differential.

- In accordance with ICAI Valuation Standard 301, the value of a specific equity interest is determined having regard to the rights, privileges, and restrictions attaching to the class of shares being valued. On the basis that Class EQ (with voting rights) and EQ Class B (with non -voting rights) of SEPL rank *pari passu* in all economic entitlements, in my opinion their intrinsic economic value would be substantially similar, the principal distinction being the voting rights attaching to Class EQ shares.

- Having regard to generally accepted industry benchmarks on voting rights discounts, I have applied a Discount for Lack of Voting Rights (DLVR) of 5% to the share entitlement ratio of EQ Class B shareholders. The said DLVR is a ratio-adjustment applied solely to neutralize the voting rights differential between the two classes and does not constitute an independent valuation of the Demerged Undertaking or an opinion on the absolute fair value of either class of shares.

6. RECOMMENDATION OF FAIR SHARE ENTITLEMENT RATIO FOR THE PROPOSED MERGER

Based on the foregoing and on the consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, a share entitlement ratio in the event of the Proposed Demerger would be as follows:

"1 (One) fully paid voting Equity Share of INR 10/- (Indian Rupee Ten) each in SGPL for every 1 (One) fully paid voting Equity Share (Class EQ) of INR 10/- (Indian Rupee Ten) each held in SEPL".

" 9.5 (Nine and a half) fully paid voting Equity Share of INR 10/- (Indian Rupee Ten) each in SGPL for every 10 (ten) fully paid non voting Equity Share of EQ Class B of INR 10/- (Indian Rupee Ten) each held in SEPL".

My Report on fair share entitlement ratio is based on the current equity share capital structure of SEPL and SGPL as mentioned above. Any variation in the equity share capital structure of SEPL and SGPL, apart from as mentioned above, may have an impact on the fair share entitlement ratio.

Accordingly, in my opinion, the aforesaid share entitlement ratio is fair and appropriate for the Proposed Demerger, having regard to the fact that

(i) Class EQ shareholders' inter-se proportionate economic interest remains unchanged, given the pari passu economic entitlement between Class EQ and EQ Class B shares as discussed above, and

Kapil Nayyar
Registered Valuer - Securities or Financial Assets
Registration No. : IBBI/RV/02/2019/12155

(ii) **(ii) the ratio applicable to EQ Class B shareholders appropriately incorporates a Discount for Lack of Voting Rights to account for the voting rights differential, as set out above.**

Since the proportionate economic entitlement of the shareholders is not expected to undergo any material change pursuant to the Proposed Demerger, I have not considered it necessary to determine the fair value of the subject business for the limited purpose of this engagement

7. SCOPE LIMITATIONS

- Provision of fair equity share entitlement ratio recommendation and consideration of the issues described herein are areas of my regular practice. The services do not represent accounting, assurance, accounting / tax due diligence, consulting, or tax related services that may otherwise be provided by me, my directors/employees.

- The recommendation contained herein is not intended to represent the fair equity share entitlement ratio at any time other than Record Date as referred to in Scheme.

- This Report, its contents and the results herein are specific to (i) the terms of my engagement; (ii) the date of this Report and (iii) are based on Scheme of the Proposed Demerger. The Management of the Companies has represented that the business activity of Apparel Business of SEPL has been carried out in the normal and ordinary course between 1 April 2026 and the Report date and that no material adverse change has occurred in their respective operations and financial position between 1 April 2026 and the Report date.

- The recommendation(s) rendered in this Report only represent my views based upon information furnished by the Companies (or their representatives) and publicly available information and the said recommendation(s) shall be considered to be in the nature of non-binding advice. In addition, I express no opinion or recommendation as to how the shareholders of the Companies should vote at any shareholders' meeting(s) to be held in connection with the Proposed Demerger.

- The determination of fair equity share entitlement ratio is not a precise science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. There is, therefore, no indisputable single share entitlement ratio. While I have provided my recommendation of the share entitlement ratio based on the information available to me and within the scope and constraints of my engagement, others may have a different opinion as to the share entitlement ratio of the equity shares of SEPL. The final responsibility for the determination of the share entitlement ratio at which the proposed demerger shall take place will be with the Board of Directors who should consider other factors such as their own assessment of the Proposed Demerger and input of other advisors.

- In accordance with the terms of my engagement and in accordance with the customary approach adopted in such exercises, I have not audited, reviewed, or otherwise investigated the financial information provided to me. Accordingly, I do not express any opinion or offer any form of assurance regarding the truth and fairness of the financial position as indicated in the financial statements.

- Also, with respect to explanations and information sought from the Clients, I have been given to understand by the Clients that they have not omitted any relevant and material factors and that they have checked the relevance or materiality of any specific information to the present exercise with me in case of any doubt. My conclusions are based on the assumptions and information given by/on behalf of the Clients.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including

the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Annexure B to Independent Auditor's Report

[Referred to in paragraph 2(g) under "Report on other legal and regulatory requirements" section of our report of even date on the Standalone Financial Statements of Shahi Exports Private Limited]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of Shahi Exports Private Limited ("the Company") as of 31 March 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

A Company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention and timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1 Background

The company is primarily engaged in the business of designing, manufacturing and selling a wide range of readymade garments and fabric items and caters to the needs of several leading international fashion brands and retailers. The principle source of revenue for the company is from the export of garments and allied products. The Company is also engaged in generating, accumulating, supplying and distributing wind and solar power.

2 Basis of preparation of financial Statements

Compliance with Indian Accounting Standard (Ind AS) and Historical cost convention

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

These standalone financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values. The Financial Statements are presented in INR (₹) and all values are rounded off to the nearest Crores with 2 decimal places, except when otherwise indicated. Figures marked with Zero (0) are below the rounding off norm adopted by the Company.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the financial statements in the period in which the changes are made.

Summary of Material Accounting Policies

The significant accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements.

2.1 Current verses non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
(a) Expected to be realised or intended to be sold or consumed in normal operating cycle.
(b) Held primarily for the purpose of trading
(c) Expected to be realised within twelve months after the reporting period, or
(d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

P M S S & CO CHARTERED ACCOUNTANTS M.No. 001331

A liability is current when:
(a) It is expected to be settled in normal operating cycle
(b) It is held primarily for the purpose of trading
(c) It is due to be settled within twelve months after the reporting period, or
(d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2 Property, plant and equipment

Freehold land is carried at historical cost and is not depreciated. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is provided on a pro-rata basis using written down value (WDV) method based on useful lives of the assets estimated by the management which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/expenses as applicable.

Capital work in progress
Cost of assets not ready for intended use, as the balance sheet date, is shown as capital work in progress. Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

2.3 Intangible assets

Intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets relating to Computer Software are depreciated over the estimated useful lives which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013.

Intangible assets acquired in a business combination are recognised at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortization and impairment losses.

P M S S & Co. CHARTERED ACCOUNTANTS

2.4 Inventories

Raw materials, packing materials, stores, spares and consumables are valued at lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Work in progress, finished goods and other inventories are valued at lower of cost or net realisable value. Cost includes cost of direct materials and labour and a proportion of manufacturing overheads. Cost is determined on a weighted average basis.

The net realizable value is determined with reference to selling price of goods less the estimated cost necessary to make the sale.

2.5 Revenue recognition

i) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods is transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods. The Company is generally the principal as it typically controls the goods before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade allowances, rebates, value added taxes, goods and service taxes and amounts collected on behalf of third parties.

ii) Interest income

Interest Income is recognized, when it is probable that the economic benefits will flow to the Company, on a time proportion basis taking into account the outstanding amount and the applicable interest rate.

iii) Dividends

Dividend income on investments is accounted when the right to receive the dividend is established.

2.6 Government Grants and Export incentives

Government Grants are recognized when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

When the grant relates to an expense item, it is netted off with the relevant expense. Where the grants relates to an asset, it is recognized as income over the expected useful life of the related assets.

Export incentives are recognised on accrual basis in accordance with the applicable schemes formulated, by the Government of India and where there is reasonable assurance that the Company will comply with the conditions attached to them.

2.7 Foreign currency transactions

Functional Currency

The functional and presentation currency of the Company is Indian Rupee (₹) which is the currency of the primary economic environment in which the Company operates.

Transactions and translations

Transactions in foreign currencies are translated at the exchange rates prevailing on the date of transaction. Foreign exchange gains and losses resulting from the settlement of transaction in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currency at year end exchange rates are generally recognized in Profit and Loss.

Forward currency contract are carried as financial assets when fair value is positive and as financial liabilities when the fair value is negative. Change in the fair value of forward contract are recognized through Other Comprehensive Income as forward contracts are not against underlying assets/liabilities.

2.8 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial assets

(i) Initial recognition and measurement

At initial recognition, the Company measures a financial asset at its fair value, plus in the case of a financial asset not recorded at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified as debt instruments and equity instruments.

(a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Fair value through other comprehensive income (FVOCI): A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Fair value through profit or loss (FVTPL): FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency, however no such designation has been made. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

P M S S & CO M.No. 001331 CHARTERED ACCOUNTANTS

(b) Equity instruments

All equity investments in scope of Ind-AS 109 are measured at fair value other than equity investments measured at deemed cost on first time adoption of Ind AS. Equity instruments which are held for trading are classified as at Fair Value Through Profit or Loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at Fair Value Through Other Comprehensive Income (FVTOCI) or Fair Value Through Profit or Loss (FVTPL). The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

(c) Investment in subsidiaries and Joint Venture

Investment in equity instruments of subsidiaries and joint venture is carried at cost less impairment, if any. At the end of each reporting period the Company assesses whether there are indicators of diminution in the value of its investments and provides for impairment loss, where necessary.

(iii) De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company's similar financial assets) is primarily derecognised when:

a) The rights to receive cash flows from the asset have expired, or

b) The Company has transferred substantially all the risks and rewards of the asset.

The Company derecognises a financial asset when:

– the contractual rights to the cash flows from the financial asset expire; or

– it transfers the rights to receive the contractual cash flows in a transaction in which either:

• substantially all of the risks and rewards of ownership of the financial asset are transferred; or

• the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

(iv) Impairment of financial assets

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, loans, advances, security deposits, trade receivables etc. held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort.

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss on the financial assets on a case to case basis. The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low.

P M S S & CO CHARTERED ACCOUNTANTS M.No. 091331

B. Financial liabilities

(i) Initial recognition, measurement and presentation

Financial liabilities are classified, at initial recognition, as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings, derivative financial instruments and financial guarantee contracts.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives, financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss. Financial liabilities are designated upon initial recognition as at fair value through profit or loss only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss.

Trade Payables

Trade payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the lender for a loss it incurs because the specified borrower fails to make a payment when due in accordance with the terms of a loan agreement. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

(iii) De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

P M S S & Co. M.No. 091331 CHARTERED ACCOUNTANTS

2.9 Derivative and hedging activities

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Cash flow hedge:

The effective portion of changes in the fair value of the hedging instruments is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Such amounts are reclassified in to the statement of profit or loss when the related hedge items affect profit or loss except in respect of inventories and property, plant and equipment where such changes are adjusted to their cost.

Any ineffective portion of changes in the fair value of the derivative or if the hedging instrument no longer meets the criteria for hedge accounting, is recognized immediately in the statement of profit and loss.

Fair Value Hedge:

Changes in fair value of derivatives including forward exchange contracts that qualify as fair value hedge are recognized in profit or loss.

Financial instruments at fair value through profit or loss:

This category has derivative financial instruments which are not designated as hedges. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial instruments at fair value through profit or loss.

2.10 Employee Benefits

(i) Short-term Obligations

All employee benefits payable/available within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, allowances and bonus etc., are recognised in the statement of profit and loss in the period in which the employee renders the related service.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are expected to be settled after the retirement of employee. Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes.

(iii) Post-employment obligations

Defined benefit plan

Gratuity

Gratuity liability is a defined benefit obligation which is funded through policy taken from Life Insurance Corporation of India('LIC') and liability (net of fair value of investment in LIC) is provided for on projected unit credit method made at the end of each balance sheet date. The fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis. The Company makes defined contribution to the Gratuity Trust established for this purpose.

Defined contribution plan

Provident Fund

The Company pays provident fund contributions to a fund administered by Government Provident Fund Authority. The Company recognises contribution payable to provident and pension fund as expenditure, when an employee renders the related service.

P M S S & CO. M.No. 091331 CHARTERED ACCOUNTANTS

2.11 Taxation

Tax expense for the year comprises current and deferred tax.

Current tax

Current income tax is recognised based on the taxable profit for the year, using tax rates and tax laws that have been enacted or substantially enacted on the date of balance sheet. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax

Deferred income tax is provided in full, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, using tax rates and tax laws that have been enacted or prescribed on the date of balance sheet.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets include Minimum Alternative Tax ('MAT') paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

2.12 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The Company discloses contingent liabilities in the notes to financial statements.

Contingent assets are not disclosed in the financial statements however, when inflows of economic benefits are probable, then related asset is disclosed.

Provisions and contingent liabilities are reviewed at each balance sheet.

2.13 Impairment of non-financial assets

As at the end of each accounting year, the company reviews the carrying amounts of its property, plant and equipment, Right of use assets and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. P.M.S.S & CO. M.No. 091331 CHARTERED ACCOUNTANTS

2.19 Leases

The Company has adopted Ind AS 116 "Leases" from 01 April 2019.

The Company's lease asset classes primarily consist of leases for buildings. The Company as a lessee assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.
The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate.
Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.20 Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash in hand, cash at bank and demand deposits with the banks. It also includes short-term deposits with original maturities of three months or less.

34 Financial risk management objectives and policies

The Company's financial liabilities comprise borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's working capital requirements. The Company has various financial assets such as trade receivables, loans, investments, cash & cash equivalents and other financial assets, which arise directly from its operations. The Company enters into derivative transactions by way of forward exchange contracts to hedge its receivables. The Board of Directors reviews the financial position and financial performance on periodic basis. The evaluation of various types of risks applicable to Company have been explained below:

(i) Market Risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes.

- **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has availed term loans under Technology Upgradation Fund (TUF) scheme bearing fixed interest rate. Further, Company has also availed various working capital loans bearing floating interest rate. The risk of change in interest rate is moderate and will not have much impact on the profit before tax.

Particulars	Increase/(decrease) in basis points	Effect on profit before tax
31 March, 2026	50	7.73
31 March, 2025	50	5.16

- **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company manages its foreign currency risk through entering into forward exchange contracts. Therefore, risk on account of change in foreign exchange rates is low.

(ii) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans receivables, investments and cash and cash equivalents.

With respect to Trade receivables, the Company has constituted the terms to review the receivables on periodic basis and to take necessary mitigations, wherever required. The loans given by the Company majorly constitutes of loans to wholly owned subsidiary and there is no risk regarding its recoverability.

Credit risk from balances with bank and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company has obtained fund and non-fund based working capital lines from various banks. The Company invests its surplus funds in bank fixed deposit and securities, which carry no or low market risk.

The Company monitors its risk of a shortage of funds on a regular basis. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank borrowings etc. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

The following table shows a maturity analysis of the anticipated cash flows for the Company's financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

All the eligible employees opted for the same as per the plan during the financial year 2025-26.

37 Leases

Company as lessee

The Company has adopted Ind AS 116 "Leases" and applied the standard to lease contracts by recognizing a lease liability at the present value of the remaining lease payments, discounted using the company's incremental borrowing rate and recognizing a right-of-use asset at an amount equal to the lease liability.

The nature of expenses in respect of operating leases has changed from lease rent to depreciation and amortisation on right of use asset and finance cost for interest accrued on lease liability. Ind AS 116 has resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases (including low-value lease assets) was Rs. 80.54 Crores (previous year: Rs 45.78 Crores).

The aggregate depreciation on ROU assets has been included under depreciation and amortisation expense in the Statement of Profit and Loss.

38 The Company has spent Rs 28.47 Crores (previous year: Rs 22.26 Crores) towards Corporate Social Responsibility as prescribed under Section 135 of the Companies Act, 2013 (Refer note 25).

SHAHI EXPORTS PRIVATE LIMITED
Notes to Financial Statements for the period ended 30 June, 2026

1 Background

The company is primarily engaged in the business of designing, manufacturing and selling a wide range of readymade garments and fabric items and caters to the needs of several leading international fashion brands and retailers. The principle source of revenue for the company is from the export of garments and allied products. The Company is also engaged in generating, accumulating, supplying and distributing wind and solar power.

2 Basis of preparation of financial Statements

Compliance with Indian Accounting Standard (Ind AS) and Historical cost convention

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

These standalone financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the financial statements in the period in which the changes are made.

Summary of Material Accounting Policies

The significant accounting policies applied by the Company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements.

2.1 Current verses non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:
(a) Expected to be realised or intended to be sold or consumed in normal operating cycle.
(b) Held primarily for the purpose of trading
(c) Expected to be realised within twelve months after the reporting period, or
(d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:
(a) It is expected to be settled in normal operating cycle
(b) It is held primarily for the purpose of trading
(c) It is due to be settled within twelve months after the reporting period, or
(d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.
The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.2 Property, plant and equipment

Freehold land is carried at historical cost and is not depreciated. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation is provided on a pro-rata basis using written down value (WDV) method based on useful lives of the assets estimated by the management which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/expenses as applicable.

Capital work in progress
Cost of assets not ready for intended use, as the balance sheet date, is shown as capital work in progress. Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

2.3 Intangible assets

Intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets relating to Computer Software are depreciated over the estimated useful lives which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013.

Intangible assets acquired in a business combination are recognised at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortization and impairment losses.

2.4 Inventories

Raw materials, packing materials, stores, spares and consumables are valued at lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Work in progress, finished goods and other inventories are valued at lower of cost or net realisable value. Cost includes cost of direct materials and labour and a proportion of manufacturing overheads. Cost is determined on a weighted average basis.

The net realizable value is determined with reference to selling price of goods less the estimated cost necessary to make the sale.

2.5 Revenue recognition

i) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods is transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods. The Company is generally the principal as it typically controls the goods before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of trade allowances, rebates, value added taxes, goods and service taxes and amounts collected on behalf of third parties.

ii) Interest income

Interest Income is recognized, when it is probable that the economic benefits will flow to the Company, on a time proportion basis taking into account the outstanding amount and the applicable interest rate.

iii) Dividends

Dividend income on investments is accounted when the right to receive the dividend is established.

2.6 Government Grants and Export incentives

Government Grants are recognized when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

When the grant relates to an expense item, it is netted off with the relevant expense. Where the grants relates to an asset, it is recognized as income over the expected useful life of the related assets.

Export incentives are recognised on accrual basis in accordance with the applicable schemes formulated, by the Government of India and where there is reasonable assurance that the Company will comply with the conditions attached to them.

2.7 Foreign currency transactions

Functional Currency

The functional and presentation currency of the Company is Indian Rupee (₹) which is the currency of the primary economic environment in which the Company operates.

Transactions and translations

Transactions in foreign currencies are translated at the exchange rates prevailing on the date of transaction. Foreign exchange gains and losses resulting from the settlement of transaction in foreign currencies and from the translation of monetary assets and liabilities denominated in foreign currency at year end exchange rates are generally recognized in Profit and Loss.

Forward currency contract are carried as financial assets when fair value is positive and as financial liabilities when the fair value is negative. Change in the fair value of forward contract are recognized through Other Comprehensive Income as forward contracts are not against underlying assets/liabilities.

2.8 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A. Financial assets

(i) Initial recognition and measurement

At initial recognition, the Company measures a financial asset at its fair value, plus in the case of a financial asset not recorded at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified as debt instruments and equity instruments.

(a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Fair value through other comprehensive income (FVOCI): A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:
a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent SPPI.

Fair value through profit or loss (FVTPL): FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency, however no such designation has been made. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

(b) Equity instruments

All equity investments in scope of Ind-AS 109 are measured at fair value other than equity investments measured at deemed cost on first time adoption of Ind AS. Equity instruments which are held for trading are classified as at Fair Value Through Profit or Loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at Fair Value Through Other Comprehensive Income (FVTOCI) or Fair Value Through Profit or Loss (FVTPL). The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to Statement of Profit and Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

(c) Investment in subsidiaries and Joint Venture

Investment in equity instruments of subsidiaries and joint venture is carried at cost less impairment, if any. At the end of each reporting period the Company assesses whether there are indicators of diminution in the value of its investments and provides for impairment loss, where necessary.

(iii) De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company's similar financial assets) is primarily derecognised when:

a) The rights to receive cash flows from the asset have expired, or
b) The Company has transferred substantially all the risks and rewards of the asset.

The Company derecognises a financial asset when:
– the contractual rights to the cash flows from the financial asset expire; or
– it transfers the rights to receive the contractual cash flows in a transaction in which either:
• substantially all of the risks and rewards of ownership of the financial asset are transferred; or
• the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

(iv) Impairment of financial assets

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, loans, advances, security deposits, trade receivables etc. held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort.

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Company assesses impairment based on expected credit losses (ECL) model for measurement and recognition of impairment loss on the financial assets on a case to case basis. The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low.

B. **Financial liabilities**

(i) **Initial recognition, measurement and presentation**

Financial liabilities are classified, at initial recognition, as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings, derivative financial instruments and financial guarantee contracts.

(ii) **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include derivatives, financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss. Financial liabilities are designated upon initial recognition as at fair value through profit or loss only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the Statement of Profit and Loss.

Trade Payables

Trade payables represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the lender for a loss it incurs because the specified borrower fails to make a payment when due in accordance with the terms of a loan agreement. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

(iii) **De-recognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

2.9 Derivative and hedging activities

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Cash flow hedge:

The effective portion of changes in the fair value of the hedging instruments is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Such amounts are reclassified in to the statement of profit or loss when the related hedge items affect profit or loss except in respect of inventories and property, plant and equipment where such changes are adjusted to their cost.

Any ineffective portion of changes in the fair value of the derivative or if the hedging instrument no longer meets the criteria for hedge accounting, is recognized immediately in the statement of profit and loss.

Fair Value Hedge:

Changes in fair value of derivatives including forward exchange contracts that qualify as fair value hedge are recognized in profit or loss.

Financial instruments at fair value through profit or loss:

This category has derivative financial instruments which are not designated as hedges. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial instruments at fair value through profit or loss.

(i) Short-term Obligations

All employee benefits payable/available within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, allowances and bonus etc., are recognised in the statement of profit and loss in the period in which the employee renders the related service.

The liabilities for earned leave are expected to be settled after the retirement of employee. Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes.

(iii) Post-employment obligations

Defined benefit plan

Gratuity

Gratuity liability is a defined benefit obligation which is funded through policy taken from and liability (net of fair value of investment) is provided for on projected unit credit method made at the end of each balance sheet date. The fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognise the obligation on a net basis. The Company makes defined contribution to the Gratuity Trust established for this purpose.

Defined contribution plan

Provident Fund

The Company pays provident fund contributions to a fund administered by Government Provident Fund Authority. The Company recognises contribution payable to provident and pension fund as expenditure, when an employee renders the related service.

2.11 Taxation

Tax expense for the year comprises current and deferred tax.

Current tax

Current income tax is recognised based on the taxable profit for the year, using tax rates and tax laws that have been enacted or substantially enacted on the date of balance sheet. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax

Deferred income tax is provided in full, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, using tax rates and tax laws that have been enacted or prescribed on the date of balance sheet.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets include Minimum Alternative Tax ('MAT') paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognized as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realized.

2.12 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The Company discloses contingent liabilities in the notes to financial statements.

Contingent assets are not disclosed in the financial statements however, when inflows of economic benefits are probable, then related asset is disclosed.

Provisions and contingent liabilities are reviewed at each balance sheet.

2.13 Impairment of non-financial assets

As at the end of each accounting year, the company reviews the carrying amounts of its property, plant and equipment, Right of use assets and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the said assets are tested for impairment so as to determine the impairment loss, if any.

2.14 Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset until such time as the assets are substantially ready for the intended use or sale. All other borrowing costs are expensed in the period in which they occur.

2.15 Earnings per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share

Diluted earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares including additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares happened.

2.16 Research & Development

Property, plant and equipment (Fixed assets) acquired for Research and Development are capitalized. Revenue expenditure on Research and Development is charged to the Statement of Profit and Loss in the year in which it is incurred.

2.17 Fair Value Measurement

The company measures financial instruments, such as investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either -

-In the principal market for the asset or liability, or
-In the absence of a principal market, in the most advantageous market for the asset or liability.

2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The Chief Executive Officer of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined by Ind AS 108, Operating Segments, by the Management of the Company who generally assesses the financial performance and position of the Company and makes strategic decisions.

2.19 Leases

The Company has adopted Ind AS 116 "Leases" from 01 April 2019.

The Company's lease asset classes primarily consist of leases for buildings. The Company as a lessee assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.
The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate.
Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.20 Cash and cash equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash in hand, cash at bank and demand deposits with the banks. It also includes short-term deposits with original maturities of three months or less.

32 Financial risk management objectives and policies

The Company's financial liabilities comprise borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's working capital requirements. The Company has various financial assets such as trade receivables, loans, investments, cash & cash equivalents and other financial assets, which arise directly from its operations. The Company enters into derivative transactions by way of forward exchange contracts to hedge its receivables. The Board of Directors reviews the financial position and financial performance on periodic basis. The evaluation of various types of risks applicable to Company have been explained below:

(i) Market Risk

Market risk is the risk of any loss in future earnings, in realisable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes.

- **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has availed term loans under Technology Upgradation Fund (TUF) scheme bearing fixed interest rate. Further, Company has also availed various working capital loans bearing floating interest rate. The risk of change in interest rate is moderate and will not have much impact on the profit before tax.

Particulars	Increase/(decrease) in basis points	Effect on profit before tax
30 June, 2026	50	1.95
31 March, 2026	50	7.73

- **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company manages its foreign currency risk through entering into forward exchange contracts. Therefore, risk on account of change in foreign exchange rates is low.

(ii) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial instruments that are subject to credit risk and concentration thereof principally consist of trade receivables, loans receivables, investments and cash and cash equivalents.

With respect to Trade receivables, the Company has constituted the terms to review the receivables on periodic basis and to take necessary mitigations, wherever required. The loans given by the Company majorly constitutes of loans to wholly owned subsidiary and there is no risk regarding its recoverability.

Credit risk from balances with bank and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company has obtained fund and non-fund based working capital lines from various banks. The Company invests its surplus funds in bank fixed deposit and securities, which carry no or low market risk.

The Company monitors its risk of a shortage of funds on a regular basis. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank borrowings etc. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low.

The following table shows a maturity analysis of the anticipated cash flows for the Company's financial liabilities on an undiscounted basis, which therefore differ from both carrying value and fair value.

(iv) Equity Price risk

33 Capital Management

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan coupled with long term and short term strategic investment and expansion plans. The funding needs are met through cash generated from operations and long term and short term bank borrowings.

34 Leases

Company as lessee

The Company has adopted Ind AS 116 "Leases" and applied the standard to lease contracts by recognizing a lease liability at the present value of the remaining lease payments, discounted using the company's incremental borrowing rate and recognizing a right-of-use asset at an amount equal to the lease liability.

The nature of expenses in respect of operating leases has changed from lease rent to depreciation and amortisation on right of use asset and finance cost for interest accrued on lease liability. Ind AS 116 has resulted in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases (including low-value lease assets) was Rs. 21.47 Crores (previous year: Rs 80.54 Crores).

The aggregate depreciation on ROU assets has been included under depreciation and amortisation expense in the Statement of Profit and Loss.

35 The Company has spent Rs 6.81 Crores (previous year: Rs 28.47 Crores) towards Corporate Social Responsibility as prescribed under Section 135 of the Companies Act, 2013 (Refer note 25).

All amounts are in ₹ Crores, unless otherwise stated

36 During the financial year 2023–24, a fire occurred at the Company's Ghaziabad processing mill resulting in assessed damage of inventory to the extent of Rs 24.12 Crores net of salvage value. Against the said loss, Company received an insurance claim settlement of Rs 14.69 Crores during the financial year 2024–25. The balance claim amount remains under consideration, and the Company continues to pursue recovery thereof.

37 Previous year figures have been reclassified to conform to current year's classification.

CHARTERED ACCOUNTANTS

6. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the standalone financial statements

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the Audit of the standalone financial statements

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    a) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting

from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal controls with reference to financial statements in place and the operating effectiveness of such controls.

c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d) Conclude on appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

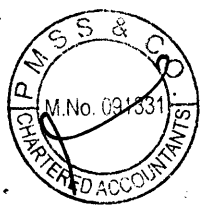

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

(b) it is expected to be realized/settled within twelve months after the reporting date;
(c) In the case of an asset :

CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use. All other property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of asset and recognised in profit or loss.

Depreciation is provided on a pro-rata basis using written down value (WDV) method based on useful lives of the assets estimated by the management which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Intangible assets

Intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets relating to Computer Software are depreciated over the estimated useful lives which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013 commencing from the date that they are available for use.

2.4 Inventories

Raw materials, packing materials, stores, spares, consumables and other material are valued at lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Work in progress and finished goods are valued at lower of cost or net realisable value. Cost includes cost of direct materials and labour and a proportion of manufacturing overheads. Cost is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability; or

Provisional (Unaudited) Notes to Financial Statements for year ended June 30, 2026

1 General Information

The company is primarily engaged in the business of Fabric processing , designing, manufacturing and selling, wide range of fabric items and garments

2 MATERIAL ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements of the Company. These policies have been consistently applied to all the periods presented.

2.1 Basis of preparation of financial Statements

Compliance with Indian Accounting Standard (Ind AS) and Historical cost convention

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III of the Companies Act, 2013 (Ind AS compliant Schedule III), as applicable to the financial statements.

These Ind AS financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values. The Ind AS financial statements are presented in Indian rupees (Rs).

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

2.2 Current/Non-Current Classification

Any Asset/Liability is classified as current, if it satisfies any of the following criteria:

(a) it is expected to be realized/settled in the company's normal operating cycle;
(b) it is expected to be realized/settled within twelve months after the reporting date;
(c) In the case of an asset :
-It is held primarily for the purpose of being traded
-It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date
(d) In the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date

All other assets/liabilities are classified as non-current.

2.3 Property, plant and equipment

Land is carried at historical cost and is not depreciated. Capital work in progress (CWIP) comprises of the cost of assets not ready for intended use as on the Balance sheet date. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.All other property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of asset and recognised in profit or loss.

Depreciation is provided on a pro-rata basis using written down value (WDV) method based on useful lives of the assets estimated by the management which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013. The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Intangible assets

Intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets relating to Computer Software are depreciated over the estimated useful lives which is equal to the corresponding rates prescribed under schedule II of the Companies Act 2013 commencing from the date that they are available for use.

-the profit for the period attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares including additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares happened.

The Company measures financial instruments, such as investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability; or

P.M.S.S. & CO. M.No. 091351 CHARTERED ACCOUNTANTS

6. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the standalone financial statements

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the Audit of the standalone financial statements

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. 10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    a) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting

from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal controls with reference to financial statements in place and the operating effectiveness of such controls.

c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d) Conclude on appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. 2 MATERIAL ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements of the Company. These policies have been consistently applied to all the periods presented.

2.1 Basis of preparation of financial Statements

Compliance with Indian Accounting Standard (Ind AS) and Historical cost convention

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III of the Companies Act, 2013 (Ind AS compliant Schedule III), as applicable to the financial statements.

These Ind AS financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values.

The accounting policies are applied consistently to all the periods presented in financial statements, including the preparation of Ind AS Balance sheet as at 1st April 2017 being the date of transition to Ind AS.

Use of Estimates
The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from continued use of asset. (c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12 The Ministry of Corporate Affairs (MCA) has notified amendments to Ind AS 12, Income Taxes, to incorporate the OECD Pillar Two Model Rules. These amendments introduce specific disclosure requirements for entities that may be subject to Pillar Two income tax. Pillar Two legislation has not yet been enacted in India, where the company is headquartered. Accordingly, no adjustments have been made to these financial statements in respect of Pillar Two income taxes. The Company will continue to monitor developments in India and other jurisdictions in which it operates, and will evaluate the impact of such legislation as and when it becomes applicable.
(d) Lack of Exchangeability – Amendments to Ind AS 21 The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

2.17 New and amended standards not yet adopted

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. Once effective, the company does not expect this amedment to have a material impact on its operations or financial statements.

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III of the Companies Act, 2013 (Ind AS compliant Schedule III), as applicable to the financial statements.

These Ind AS financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values.

The accounting policies are applied consistently to all the periods presented in financial statements, including the preparation of Ind AS Balance sheet as at 1st April 2017 being the date of transition to Ind AS.

Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised.

All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of asset and recognised in profit or loss.

The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and the other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026 it's profit including total comprehensive income and changes in equity for the year then ended.

Basis for Opinion

3. We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs"), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the 'Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Other Information

4. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

5. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

PMSS & CO. M.No. 091331 CHARTERED ACCOUNTANTS

6. In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the standalone financial statements

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

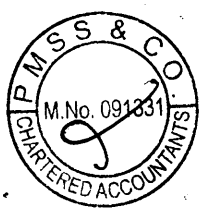

8. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditors' Responsibilities for the Audit of the standalone financial statements

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    a) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(a) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal controls with reference to financial statements in place and the operating effectiveness of such controls.

c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d) Conclude on appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

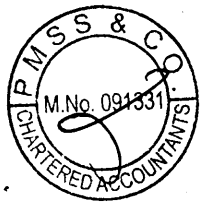

Report on Other Legal and Regulatory Requirements

13. As required by the Companies (Auditor's Report) Order, 2020 ('the order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (hereinafter referred to as the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the order to the extent applicable in the case of the Company.

d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

e) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above.

f) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

g) With respect to the adequacy of the internal controls over financial reporting of the Company with reference to the financial statements and the operating effectiveness of such controls, refer to our separate report in "Annexure B" to this report.

1. The company is engaged in trading & exports of readymade garments. The principal source of revenue for the company is from the manufacturing and sale of garments and related products. The company was incorporated on December 15, 2025, under Companies Act, 2013.

2. **Material Accounting Policies**

2.1 Basis of preparation of financial statements and use of estimates

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

These standalone financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2. Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the financial statements in the period in which the changes are made.

2.3 Current/ Non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

(a) Expected to be realised or intended to be sold or consumed in normal operating cycle.
(b) Held primarily for the purpose of trading
(c) Expected to be realised within twelve months after the reporting period, or
(d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

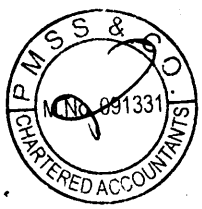

All other assets are classified as non-current.

A liability is current when:
(a) It is expected to be settled in normal operating cycle
(b) It is held primarily for the purpose of trading
(c) It is due to be settled within twelve months after the reporting period, or
(d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.4 Earnings Per Share

Basic earnings per share
Basic earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share
Diluted earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares including additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares happened.

2.5 Preliminary Expenses
Incorporation and preliminary expenses are charged to the Statement of Profit and Loss in the year incurred unless specifically eligible for capitalization under applicable Accounting Standard.

2.6 Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash in hand, cash at bank and demand deposits with the banks. It also includes short-term deposits with original maturities of three months or less.

2.7 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The Company discloses contingent liabilities in the notes to financial statements.

Contingent assets are not disclosed in the financial statements however, when inflows of economic benefits are probable, then related asset is disclosed.

Provisions and contingent liabilities are reviewed at each balance sheet.

2.8 Recent pronouncements

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Ind AS 1 – Presentation of Financial Statements Clarifications on classification of liabilities as current or non-current, including the impact of loan covenants and rights to defer settlement.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107 As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the Company will provide new disclosures for liabilities under supplier finance arrangements, if applicable.

P M S S & CO. MNo. 091331 CHARTERED ACCOUNTANTS

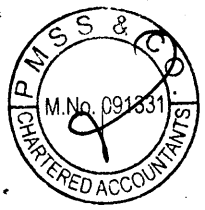

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12 The Ministry of Corporate Affairs (MCA) has notified amendments to Ind AS 12, Income Taxes, to incorporate the OECD Pillar Two Model Rules. These amendments introduce specific disclosure requirements for entities that may be subject to Pillar Two income tax. Pillar Two legislation has not yet been enacted in India, where the company is headquartered. Accordingly, no adjustments have been made to these financial statements in respect of Pillar Two income taxes. The Company will continue to monitor developments in India and other jurisdictions in which it operates and will evaluate the impact of such legislation as and when it becomes applicable.

(d) (d) Lack of Exchangeability – Amendments to Ind AS 21 The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

(e) These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.9 New and amended standards not yet adopted.

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. Ind AS 1 – Presentation of Financial Statements Clarifications on classification of liabilities as current or non-current, basis the timing of waiver granted by the lender on breach of a material provision. Once effective, the Group does not expect this amendment to have a material impact on its operations or financial statements.

SHAHI GARMENTS PRIVATE LIMITED
Provisional (Unaudited) Notes to the Financial Statements for the period ended June 30, 2026

1. The company is engaged in trading & exports of readymade garments. The principal source of revenue for the company is from the manufacturing and sale of garments and related products. The company was incorporated on December 15, 2025, under Companies Act, 2013.

2. Material Accounting Policies

2.1 Basis of preparation of financial statements and use of estimates

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

These standalone financial statements have been prepared on a historical cost basis, except for certain assets and liabilities which have been measured at fair values.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2. Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, costs, expenses and other comprehensive income that are reported and disclosed in the financial statements and accompanying notes. These estimates are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other assumptions that are believed to be reasonable under the circumstances. The estimates and the underlying assumptions are reviewed on an ongoing basis. Changes in estimates are reflected in the financial statements in the period in which the changes are made.

2.3 Current/ Non-current Classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

(a) Expected to be realised or intended to be sold or consumed in normal operating cycle.
(b) Held primarily for the purpose of trading
(c) Expected to be realised within twelve months after the reporting period, or
(d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:
(a) It is expected to be settled in normal operating cycle
(b) It is held primarily for the purpose of trading
(c) It is due to be settled within twelve months after the reporting period, or
(d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.4 Earnings Per Share

Basic earnings per share
Basic earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per share
Diluted earnings per share is calculated by dividing:
-the profit for the year attributable to equity shareholders of the Company (after deducting preference dividends and attributable taxes)
-by the weighted average number of equity shares including additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares happened.

2.5 Preliminary Expenses

Incorporation and preliminary expenses are charged to the Statement of Profit and Loss in the year incurred unless specifically eligible for capitalization under applicable Accounting Standard.

2.6 Cash and Cash Equivalents

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents include cash in hand, cash at bank and demand deposits with the banks. It also includes short-term deposits with original maturities of three months or less.

2.7 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The Company discloses contingent liabilities in the notes to financial statements.

Contingent assets are not disclosed in the financial statements however, when inflows of economic benefits are probable, then related asset is disclosed.

Provisions and contingent liabilities are reviewed at each balance sheet.

2.8 Recent pronouncements

The Ministry of Corporate Affairs vide notification dated 7 May 2025 and 13 August 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after 1 April 2025:

(a) Ind AS 1 – Presentation of Financial Statements Clarifications on classification of liabilities as current or non-current, including the impact of loan covenants and rights to defer settlement.

(b) Supplier Finance Arrangements – Amendments to Ind AS 7 and Ind AS 107 As a result of the adoption of the amendments to Ind AS 7 and Ind AS 107, the Company will provide new disclosures for liabilities under supplier finance arrangements, if applicable.

(c) International Tax Reform – Pillar Two Model Rules – Amendments to Ind AS 12 The Ministry of Corporate Affairs (MCA) has notified amendments to Ind AS 12, Income Taxes, to incorporate the OECD Pillar Two Model Rules. These amendments introduce specific disclosure requirements for entities that may be subject to Pillar Two income tax. Pillar Two legislation has not yet been enacted in India, where the company is headquartered. Accordingly, no adjustments have been made to these financial statements in respect of Pillar Two income taxes. The Company will continue to monitor developments in India and other jurisdictions in which it operates and will evaluate the impact of such legislation as and when it becomes applicable.

(d) (d) Lack of Exchangeability – Amendments to Ind AS 21 The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not.

(e) These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.
